OUR FILAMENT
MAKER SYSTEM. The
Felfil extrusion system
is composed by Felfil
Evo, a 3d printer plastic
extruder machine, and

In fact, they developed a so-called "filament extruder" for home use, i.e. a machine capable of spewing out plastic filament which you can afterwards use in your 3D printer. The photo below shows you how such an extruder looks like. The machine depicted in Photo 1 is the Noztek Pro, a sleek desktop-type extruder

Try calling local recycling companies and asking whether they

Get Free Printing In

process your plastic of choice. You might need to try multiple places, because even if a company processes a plastic type used by 3D printing, many companies might hesitate on accepting plastic waste from a non-verified source.
