Sky burial (Tibetan: ??????????, Wylie: bya gtor, lit. "bird-scattered") is a funeral practice in which a human corpse is placed on a mountaintop to decompose while exposed to the elements or to be eaten by scavenging animals, especially carrion birds. It is a specific type of the general practice of excarnation.

Sky burial - Wikipedia

Sky burial is a type of burial in which the deceased is placed on top of a mountain to decompose or to be scavenged on by animals such as vultures. It is a type of excarnation practiced in some of provinces and regions of China including Tibet, Mongolia, Sichuan, and Qinghai, and also parts of India like Sikkim.

What is A Sky Burial? - WorldAtlas

Sky burial isn't a burial at all, of anything. It's the act of leaving a corpse exposed to the elements, often in an elevated location, and only a few different cultures do it, for different...

Give My Body to the Birds: The Practice of Sky Burial ...

A sky burial is the act of leaving a corpse, cut into precise pieces by a Burial Master, exposed to the elements of nature. This Master would also be in charge of smashing and grinding the bones of the deceased body, and then leaving the prepared corpse out in their selected open site.
