*The Archetypes and the Collective Unconscious Quotes by C ...*

The psychologist, Carl Gustav Jung, used the concept of archetype in his theory of the human psyche. He believed that universal, mythic characters archetypes reside within the collective unconscious of people the world over.

*The 12 Common Archetypes*

The archetypes are components of the collective unconscious and serve to organize, direct and inform human thought and behaviour. Archetypes hold control of the human life cycle. As we mature the archetypal plan unfolds through a programmed sequence which Jung called the stages of life.

paid little heed to tradition or cultural rules, which suggests that they are innate projections.

The concept of 'Archetypes' and the hypothesis of 'A Collective Unconscious' are two of Jung's better known and most exciting ideas. In this volume - taken from the Collected Works and appearing in paperback for the first time - Jung describes and elaborates the two concepts. Three essays establish the theoretical basis which are then followed by essays on specific archetypes. The relation of these to the process of individuation is examined in the last section. The Archetypes and the Collective Unconscious is one of Jung's central works. There are many illustrations in full colour.

system: "On the Psychology of the Unconscious" and "The Relations Between the Ego and the Unconscious," with their original versions in an appendix.

To Jung, synchronicity is a meaningful coincidence in time, a psychic factor which is independent of space and time. This revolutionary concept of synchronicity both challenges and complements the physicist's classical view of causality. It also forces us to a basic reconsideration of the meaning of chance, probability, coincidence and the singular events in our lives.

In the thirties Jung was at the height of his powers and found

Carl Jung himself swept up in the international politics of his day. At this time he was president of what was to become the International General Medical Society for Psychotherapy. As a consequence of Hitler's rise, Jung and his ideas were placed in the centre of a whirlwind of theoretical and political controversy. These chaotic times led him to comment widely on political events and saw his most extensive attempt to explain these events in terms of his theories of the collective and his use of the archetype of Wotan to explain Nazi Germany. This work is part of the ongoing reappraisal of the intellectual fabric of Jung's theory and the perspective he sought to establish, and seeks to re-examine the period, to unravel some of the confusion by setting out the historical background of Jung's ideas, and provide a fresh debate on Jung and his collective theory.

The chief disciple of C. G. Jung, analyst Marie-Louise von Franz uses her vast knowledge of the world of myths, fairy tales, visions, and dreams to examine expressions of the universal symbol of the Anthropos, or Cosmic Man—a universal archetype that embodies humanity's personal as well as collective identity. She shows that the meaning of life—the realization of our fullest human potential, which Jung called individuation—can only be found through a greater differentiation of consciousness by virtue of archetypes, and that ultimately our future depends on relationships, whether between the sexes or among nations, races, religions, and political factions.

In this thoughtful discussion of Blake's well-known Marriage of Heaven and Hell, Singer shows us that Blake was actually tapping into the collective unconscious and giving form and voice to primordial psychological energies, or archetypes, that he experienced in his inner and outer world. With clarity and wisdom, Singer examines the images and words in each plate of Blake's work, applying in her analysis the concepts that Jung brought forth in his psychological theories.
